

ENAO CONGRATULATES ST.PETER'S HOSPITAL LABORATORY?

Published on: Monday December 25, 2017

ENAO is proud to announce the decision to award ST.PETER'S HOSPITAL LABORATORY accreditation against the requirements of ISO 15189:2012, *Medical laboratories - requirements for quality and competence* for the competent performance of specific tests which will be listed in its Scope of Accreditation.

The decision to award accreditation was taken by the Accreditation Approval Committee (AAC), by intensively reviewing all the outcomes and recommendations that were provided by the assessment team that conducted the on-site assessment over several days. The objective of the assessment was to verify competence in the performance of tests through objective evidence and to assess for compliance of the ADDIS ST.PETER'S HOSPITAL LABORATORY in the SCOPE of **GeneXpert and TB MICROSCOPY against the requirements of ISO 15189:2012.**
